

# OFF Campus Programs

Spring semester is a great time to enroll in an Off Campus Program! Students can continue into summer and earn valuable credits!

- 1) **Work Experience**- can be volunteer or a part-time paid position. Students can earn 15 credits towards graduation. If you have a part time job, please see Heather to get registered in this program.

- 2) **R.A.P.**-Registered Apprenticeship Program is an on the job training program within the trades. Employers are looking for students that are reliable, dedicated, and hard working. Students find a suitable position with a tradesperson before they can enter the R.A.P. program. Students can earn up to 40 credits towards their graduation. Please visit [www.tradessecrets.ab.ca](http://www.tradessecrets.ab.ca) for more information regarding suitable trades.

All Off Campus students are required to complete a safety pre-request course called HCS3000. Grade 10 students complete this course in CALM.
