Planning for Post-Secondary – Grade 12 Checklist

February

- Check your calendar for any upcoming application deadlines in March.
- Watch announcements, bulletin boards and newspapers carefully for scholarships. Local organizations and individuals sometimes award scholarships to students graduating from their local high school.

Volunteering is a great way to participate in an activity you care about, build new skills and enhance the skills you already have. Volunteer experience looks great on a resume and it can also mean the difference between you winning a scholarship or getting beat out by another candidate.

Lethbridge College Aptitude Test

Career planning is the lifelong process of thinking about values, needs and preferences and then using that information to explore work, life and learning options. A **Lethbridge College** Career and Academic Advisor can help students plan during this process.

Their Career and Academic Advisors will work with students over multiple sessions based on their needs. During the first session, the advisor will go over the assessment process and get the student to complete the Strong Interest Inventory (SII) online. A follow-up meeting will be scheduled a week later during which the advisor will go through the assessment results and explore thoughts and ideas for career paths.

Course details:

- Cost of full evaluation is \$15.75. GST is included in the fee.
- Students should be able to read at a Gr. 10 level to complete the assessment, be comfortable using the internet and must provide an email address.
