

Graduating Class of 2024

Potato Fundraiser

Torsius Tater Farms will be donating Norland red potatoes for this year's potato fundraiser. This is the same variety of potatoes that CP Farms supplied last year. It is a versatile white flesh potato that will store well if kept in a cool dark space.

10lbs bags of red potatoes will be sold for \$10 each and order forms will be made available to grad students that wish to participate in this fundraiser.

The final day to order potatoes will be Thursday, December 14. This is because we are planning to bring a load of potatoes to the school so that grad students can bag their potato orders at the school. We will pull the trailer into the shop room Friday at noon or as soon as we are able to.

Happy Selling!
